MONDAY, JANUARY 31, 2022

8:00 AM - NOON

Lumps & Bumps and Beyond: Mastering the Fundamentals

Dr. Samson Ng

Please join us for this interactive seminar designed to review oral lesions and dental therapeutics that oral care providers commonly encounter in a community practice. This seminar will reinforce the chair-side techniques for head & neck and intra-oral examinations. Techniques for written and photo documentation of oral lesions will also be discussed. The visual presentation of adjunctive evaluation tools will definitely make these topics interesting and educational. Topics include, common benign oral lesions, the uncommon but need to know lesions, and microbial infections.

LEARNING OBJECTIVES

- Learn to consolidate the clinical technique of performing an extra-oral and intra-oral soft tissue examination
- Learn to diagnosis and treat non-odontogenic oral lesions commonly identified in a community setting
- Recognize oral lesions/entities that should be 'red flagged', and discuss the proper initial management
- Learn to improve your record keeping for both patient care and the integrity of your work, should it come into question

TUESDAY, FEBRUARY 1, 2022

8:00 AM - NOON

Bridging the Urgent Care for TMD: Entry-to-Practice to Mastering Like a Pro

Dr. Samson Ng

Please join us for this interactive seminar designed to review conventional and advanced medical care and manipulative treatment for management of acute temporomandibular joint dysfunction and pain. Multiple video clips will highlight what to do in a clinical setting. More importantly, the foundation of TMD diagnosis and principles of TMD care will be explored in detail. Topics include: Tips for conservative TMD care; Medication prescription consideration for TMD pain and inflammation; DIY jaw manipulation for patient with the TMJ close lock; Manual manipulation for open TMJ lock; Pros and cons of mouthguard, IMS, trigger point injection and Botox injection therapies.

LEARNING OBJECTIVES

- Learn to recognize the presentation of TMD symptoms
- Discuss the etiology of TMD
- Review over-the-phone/video instructions for patients with morning TMJ close lock
- Learn jaw manipulation techniques
- Review applications of mouthguard therapy, IMS, Botox, and trigger point injections
- Learn to improve your record keeping for both patient care and the integrity of your work, should it come into question

SAMSON NG, BSC (Pharm), MSC, FRCD(C), FDSRCSEd, Dip, ABOM, Dip. ABOMP is a Canadian and American Board certified oral medicine specialist and oral & maxillofacial pathologist. He is currently appointed as clinical associate professor at the University of British Columbia, and staff at the Department of Dentistry, and research clinician at the Department of Otolaryngology of the Vancouver General Hospital. Dr. Ng also operates a private practice which provides comprehensive oral medicine and pathology consultations, with a special interest in oral mucosal and temporomandibular joint diseases.

THURSDAY, FEBRUARY 3, 2022

8:00 AM - NOON

**Good Things Come in Small Packages:
Practical Ways to Increase Your
Satisfaction and Success in Treating
Children**

Dr. Phoebe Tsang

One size doesn't fit all. The human microbiome project has expanded our understanding of oral microbiology. This program reviews new research on cariology and shares evidence-based diagnosis and treatment for treating children who present with different personalities, challenges and medical concerns.

LEARNING OBJECTIVES

- Learn about advances in oral microbiology and current concept of cariology
- Learn about surgical and non-surgical management of caries, including restorative and endodontic options for primary and young permanent teeth
- Explore new research on the horizon pertaining to caries diagnosis and treatment

FRIDAY, FEBRUARY 4, 2022

8:00 AM - NOON

**Parenting 101 and FAQs - How to Navigate
the Information-Rich but Knowledge-Poor
Era**

Dr. Phoebe Tsang

Treatment for pediatric patients is never finished unless parents' concerns are completely satisfied. With the information explosion on the Internet, parents exposed to endless real and fake news often come to your office with their own research and questions. This presentation will review hot topics, controversies and advances in pediatrics and dentistry. Take the information learned in this presentation back to your office, armed with the knowledge to confidently answer the most frequently asked questions from parents.

LEARNING OBJECTIVES

- Learn about different parenting styles and communication strategies
- Discuss frequently asked questions from parents in daily pediatric dental practices
- Learn about non-pharmacological guidance for helping children, including those with special needs, accomplish their treatment
- Learn about the pros and cons of pharmacological guidance in facilitating dental treatment and the potential side effects on pediatric neurological

WEDNESDAY, FEBRUARY 2, 2022 FREE DAY

Maui, also known as "The Valley Isle", is the second largest Hawaiian Island. With 120 miles of coastline, Maui boasts some of the best beaches to swim, snorkel, surf, windsurf and sunbathe. Enjoy the jaw dropping natural beauty that the island has to offer including the sacred Iao Valley, the hidden cascading waterfalls that stretch the picturesque road to Hana, incredible views of migrating humpback whales, farm-to-table cuisine, picturesque golf courses and the magnificent sunrise and sunset from Mount Haleakala. Maui is a truly magical place with something for everyone!

PHOEBE TSANG, DMD, PHD is a Fellow of the Royal College of Dentists of Canada in Pediatric Dentistry, a Diplomate of the American Board of Pediatric Dentistry and a Certified Specialist in Pediatric Dentistry in BC. She has specific interests in microbiology which led to her pursuit of PhD in oral biology at UCLA. She has been appointed as a Clinical Associate Professor at UBC Faculty of Dentistry. She is a member of the American College of Dentists and International College of Dentists. Besides practicing dentistry at her private practice in Abbotsford, she also teaches pediatric dentistry graduate program at BC Children's Hospital and serves as consultant at the Forsyth Institute.
