Dr. Benjamin Pliska

September 2017 – August 2018

LIMITED ENROLMENT

Continuing Dental Education, Faculty of Dentistry
is an ADA CERP recognized provider

ADA CERP® | Continuing Education
Recognition Program

COURSE OUTLINE

This course provides detailed instruction in diagnosis, treatment planning and specifics of treatment procedures for general practitioners who already have some familiarity with orthodontic procedures. It is emphasized that these sessions provide practical experience, on an ongoing basis, with the practitioner's own patients. This course is not limited to theoretical concepts and laboratory procedures. Case presentations and discussions on treatment planning will be held at each session and will supplement clinical treatment of patients. Participants are responsible for providing their own patients. Through the mentorship provided in these courses, participants will develop a clear understanding of the standard of care for comprehensive orthodontic treatment, from record taking to finishing of the occlusion. Some cases – either with fixed appliances or removable aligners, can be well treated in a general practice when the clinician has taken this course; other patients require a specialist. Dr. Pliska gives careful training as to how to make this important distinction. It should be noted that regular attendance is required in order to maintain proper continuity of service to patients, and to keep abreast of the progress of the participants. Therefore participants will need to be able to make a commitment to attend sessions consistently.

SESSION 1	September 14, 15, 16, 2017
SESSION 2	October 12, 13, 14
SESSION 3	November 16, 17, 18
SESSION 4	December 7, 8, 9
SESSION 5	January 11, 12, 13, 2018
SESSION 6	February 15, 16, 17
SESSION 7	March 15, 16, 17
SESSION 8	April 12, 13, 14
SESSION 9	May 10, 11, 12
SESSION 10	June 7, 8, 9
SESSION 11	July 12, 13, 14
SESSION 12	August 16, 17, 18

Each session is 5 hours in length. Please choose Thursday PM, Friday or Saturday AM Session

FAQ'S

What is the philosophy governing the Advanced Orthodontic Courses for the General Practitioner?

As an initiation into orthodontic principles and practice, lecture courses are essential and are certainly recommended. When the General Practitioner then embarks on actual treatment of orthodontic cases, explanation and guidance at the "hands on" level is extremely helpful. However, orthodontic treatment is a long-term commitment for both patient and clinician, where frequent visits and ongoing re-evaluation of progress are necessary. For this reason the Advanced Orthodontic Courses operate on a continuous 12 months a year basis, whereas intermittent courses leave the practitioner uncertain as to how to proceed as cases advance toward completion.

Who is eligible to join an Advanced Group?

General Dentists who have taken a Basic Orthodontic Course, or who are recent graduates of UBC, or who have had exposure since graduation to fixed appliance principles and practice. If in doubt, contact Dr. Pliska, or the Director of Continuing Dental Education.

Who provides the patients?

Patients must be "patients of record" in the participant's practice. UBC Continuing Education does not have a pool of persons awaiting treatment.

What is the scope and format of the sessions held each month?

Approximately the first 2 hours are spent in discussion of detailed records for patients for whom treatment is proposed. After the general outline is given, the entire group is encouraged to participate in the discussion. Dr. Pliska chairs the meeting. The atmosphere is friendly, constructive and cordial! The second 3 hours is spent in the UBC Sutherland clinic, where Dr. Pliska works directly with each participant and his/her patients. Discussion and demonstration to all members are ongoing during the clinic time

Is it necessary to bring any equipment, instruments, supplies or products to the advanced courses?

No, all instruments and equipment are made available without extra charge by Continuing Dental Education. Clinic sundries such as gloves, masks etc. are also supplied. Brackets, wires, bands etc. are available in the clinic. Each practitioner has an account set up at the beginning of the academic year, and is invoiced for the brackets, archwires etc. quarterly through the year.

REGISTRATION APPLICATION ADVANCED ORTHODONTICS FOR THE GENERAL PRACTITIONER 2017-18

Tuition:

	Please choose:	AM	or	PM
