THE AAID VANCOUVER MAXICOURSE connects dentists with the most comprehensive and foundational dental implant training, led by the most experienced team of oral implantologists in the province. Are you ready to take your dental implant practice to the next level? YOUR CAREER IN ORAL IMPLANTOLOGY BEGINS HERE
September to June each year
300 Hours of Continuing Education in Oral Implantology

In partnership with
THE UNIVERSITY OF BRITISH COLUMBIA
Faculty of Dentistry
Continuing Dental Education

Program Outline
Over 300 hours of Continuing Education

The AAID Vancouver MaxiCourse® is a structured program consisting of 30 days of education over ten months. The program runs each year from September through June. Each Module runs from Friday to Sunday, consisting of a systematic buildup of didactic material, laboratory exercises, surgical demonstrations, clinical participation, and surgeries on your own patients. All surgeries are mentored and supervised by AAID board-certified faculty members in the UBC Faculty of Dentistry grad specialty clinic. Module four of the program offers an opportunity to review surgical anatomy as well as the placement of implants and performance of various surgical procedures on cadavers at the UBC Faculty of Medicine, Department of Anatomy. At the completion of the program, each participant will be eligible to challenge the written component of the AAID Fellowship exam. This is optional and a personal choice.

PROGRAM HIGHLIGHTS

- 300 Hours CE over 10 months at the University of British Columbia
- 14 days of Live Patient Surgical and Prosthetic Sessions. More clinical experience than any other program in Western Canada
- Numerous hands-on workshop opportunities: bone density, sterile setup, guided surgical planning, flap design, suturing, pig jaw manipulation, and much more
- 3-day Cadaver Course with anatomy review and mock surgeries - implant placements, bone grafting, sinus lifts
- Online case planning, support, and dialogue and discussion through a private, unique online learning platform with Dental Campus
- 6 treatment planning sessions where you will present your cases and participate with your colleagues’ cases
- Detailed case discussion and critique where you learn alongside colleagues regarding live surgery
- Perform surgeries on your own patients, under one-on-one surgical mentorship throughout the program from six ABOI Board-Certified oral implantologists
- One-on-one surgical mentorship throughout the program from six ABOI Board-Certified Oral Implantologists
- Non-commercial course covering the spectrum of implant types and systems
- No implant system purchase required
- Excellent review of fundamental sciences, comprehensive treatment planning, surgical protocols, and restorative protocols
- Experts and pioneers in the field cover the big topics in implant dentistry, providing a broad perspective on implantology
- Course participants will be eligible to take the Part 1, AAID Associate Fellow exam
- 12 month membership in the American Academy of Implant Dentistry
- Subscription to the Journal of Oral Implantology, AAID News, Implant Insights, Digital Newsletter
- Participants may charge their professional fees to their patients to help recover tuition costs

MENTORSHIP
A one-year advanced implantology fellowship program under Vancouver’s leading team in implant dentistry. Receive individual mentorship from Diplomates of the American Board of Oral Implantology.

TRAINING
From the basics to more advanced implantology, experience your learning first-hand, explore numerous hands-on exercises, and lead surgeries on your own patients.

UNDERSTANDING
Take your knowledge base to the next level through the guidance of experts in the field and expand your understanding of the current scientifically-based research.

The magic is in the magician,
not in the wand.
~ Dr. William K. B. Liang

About William Liang
Director, AAID Vancouver MaxiCourse
Canadian Dental Implant Training Centre
Honored Fellow, American Academy of
Implant Dentistry
Diplomate, American Board of
Oral Implantology

Dr. William Liang attended the University of British Columbia and received his Bachelor’s degree in Microbiology in 1981 and his Doctor of Dental Medicine Degree in 1983. At graduation, he was awarded the Canadian Oral and Maxillo-Facial Prize for highest standing in the area of Oral Surgery. He has been practicing dentistry in Surrey, BC for the past 30 years. Currently his practice is focused on adult restorative and implant dentistry. He is on the executive of the AAID Western District. Dr. Liang is Board Certified by the American Board of Oral Implantology / Implant Dentistry, Fellow of the Academy of General Dentistry, Fellow and Diplomate of the International Congress of Oral Implantology, Fellow of the Misch Implant Institute and Honoured Fellow of the American Academy of Implant Dentistry.

Top 5 Reasons to Attend the AAID Vancouver MaxiCourse:

1. **Learn it, See it, Do it.** Immerse yourself in the subject matter with lecture and discussion, live surgeries, and hands-on workshops.
2. **Develop confidence.** In your ability to perform surgical procedures that you weren’t comfortable performing previously.
3. **Learn from the Best.** The guiding hands of the Vancouver MaxiCourse are passionate, experienced veterans in the field. Learn in a warm, interactive, and enthusiastic environment with the camaraderie of your fellow participants.
4. **Learn the Why.** More than just another weekend how-to course, you will find out what really works, what doesn’t, and have your eyes opened to a wide range of possibilities.
5. **Earn credentials to be proud of.** This is your first step into greater knowledge and skill, and it also provides the opportunity to elevate your status in the dental community. Stretch and challenge yourself—become a Fellow in the American Academy of Implant Dentistry and a Diplomate with the American Board of Oral Implantology. These credentials can’t be found anywhere else.
### So What Sets Us Apart?

#### Who We Are

<table>
<thead>
<tr>
<th>A faculty of GP’s and specialists teaching real world applications with real world sensitivities to lifelong learners from all backgrounds of dentistry.</th>
<th>Specialists without an appreciation for where you come from and your priorities for patient care as a general practitioner.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Generic programs free from corporate bias, driven by the latest scientific research and studies in best practices.</td>
<td>A product-driven educational experience with sales pushed upon you, or a lecture series with speakers hand-picked by industry professionals rather than educators.</td>
</tr>
<tr>
<td><strong>Lifelong learning opportunities.</strong> Implant dentistry is a lifelong pursuit, and it is vital to have consistent and regular continuing education to improve your skills.</td>
<td>Here for a quick visit and then out of town when you need further learning support following our program.</td>
</tr>
<tr>
<td><strong>A balanced educational experience.</strong> We emphasize both didactic instruction and hands-on clinical skill-building instruction. Learn, and then apply what you learn.</td>
<td>An educational experience that places too much emphasis on clinical skills without the accompanying knowledge base to inform good, sound clinical decision-making.</td>
</tr>
<tr>
<td><strong>A multiple implant systems approach to learning,</strong> to better understand the Pros and Cons of different implant designs. No single implant system is a one-size-fits-all.</td>
<td>A one-size-fits-all approach to education or to product usage.</td>
</tr>
<tr>
<td><strong>Education to teach you to develop critical thinking skills.</strong> Far from trying to sell you something, we work to teach you how to think critically so that new information that you receive is funneled through your own internal filter.</td>
<td>A pure recipe book that doesn't prepare you for surgical complications and complications management.</td>
</tr>
<tr>
<td><strong>Scaffolded learning and instruction.</strong> We put you in the driver’s seat when you’re truly ready. That means learning the principles and mechanics in lecture as well as observing a live demonstration procedure before tackling a similar case yourself.</td>
<td>A condensed program that cuts out essential knowledge and provides wish-fulfillment that you are ready to tackle big surgical cases.</td>
</tr>
</tbody>
</table>
| **Comprehensive Education.** You don’t know what you don’t know... but with patience, hard work, and dedication, we can get you to the point where a safe, effective, and profitable implant practice is within your reach. | The “get educated quick” scheme because we feel that would be a disservice to you as the learner and a disservice to your patients. “You don’t know what you don’t know... and what you don’t know can get you and your patient into trouble”.
