16 hours of instruction

A portion of this program is being generously sponsored by an unrestricted education grant from:

FAIRMONT ORCHID RESORT ACCOMMODATION:

Special hotel reservations at the Fairmont Orchid Resort have been arranged for course participants that are not available to the general public. Please call Jane Patrick at North South Travel 604 717 1751 or email jane@nstravel.bc.ca to book today!

TRAVEL QUESTIONS?

Please call Jane at North South Travel 604 717 1751. She will be happy to arrange all of your travel requests, from rental cars and upgrading rooms to arranging flights.

CANCELLATION POLICY: Full refunds less a $100 service charge will be granted for cancellations made 60 days prior to the course. Cancellations made between 30 to 60 days prior to the first day of the program will receive a 50% refund. No refunds will be granted for cancellations made less than thirty days prior to the first day of the program. Continuing Dental Education at The University of British Columbia reserves the right to cancel courses or switch instructors if deemed necessary by low enrollment, instructor cancellation or other unforeseen issues. In case of course cancellation a full refund will be issued.

TIME: Monday, Tuesday, Thursday, Friday: 8:00 am – 12:00 pm

16 Hours of Instruction

CDE at UBC is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.

DISCLAIMER: Dental education institutions have an obligation to disseminate new knowledge related to dental practice. Some presentations may include controversial materials or commercial references. Sponsorship of a continuing education course by The University of British Columbia does not imply endorsement of a particular philosophy, procedure or product by The University of British Columbia. Fee in full must accompany registration. The tuition fee is deductible for Canadian Income Tax purposes.

MARCH 25–29, 2019

BIG ISLAND, HAWAII

FAIRMONT, ORCHID RESORT

Cover Photo by Fairmont Hotels & Resorts
Traditionally dentistry has viewed temporomandibular disorders as a dental/occlusal problem with treatments focused on occlusal splints, occlusal adjustment, and analgesics. Temporomandibular disorders are in fact a wide range of conditions that involve not just the dentition but many tissues (including the TMJ, muscles, nerves, and CNS) with signal processing occurring at many steps along the way. A biopsychosocial approach to examination, diagnosis, and treatment can be an effective approach to account for these additional considerations. This approach also helps to identify those temporomandibular disorder patients who are more likely to need a multidisciplinary team as part of their care.

LEARNING OBJECTIVES:
• Describe the etiology and demographics of temporomandibular disorders
• Explain the diagnostic approach to temporomandibular disorders
• Discuss an evidence-based approach to temporomandibular disorders
• Explain the role of multidisciplinary treatment in temporomandibular disorders
• Discuss the relationship between orthodontic treatment and temporomandibular disorders

Dr. Whitney was appointed to the Vancouver General Hospital Medical Staff in 2004 and since then he has been treating patients with oral mucosal disorders, facial pain, and temporomandibular disorders in the VGH Department of Dentistry. From 2011 to 2015 he was the director of the VGH Dentistry Oroatofacial Pain Program. He has also been providing Oral Medicine and Pathology care to patients at the VGH Mary Pack Arthritis Centre since 2011.

Dr. Whitney was a past president of both the British Columbia Society of Oral Medicine and Pathology (BCSOMP) and the Canadian Academy of Oral and Maxillofacial Pathology and Oral Medicine (CAOMPOM). He served three consecutive two-year terms as the UBC Representative to the British Columbia College of Dental Surgeons (CDSBC) Board of Directors. He has also served on the British Columbia Dental Association (BCDA) MISP negotiations committee as the Oral Medicine Oral Pathology representative. He is an examiner in Oral Medicine and Oral Pathology for the Royal College of Dentists of Canada.

VINCENT O. KOKICH JR., DMD MSD received his dental degree from Tufts University School of Dental Medicine in 1996 and completed a general practice residency at the University of Washington Medical Center in 1997. He returned to the University of Washington for his orthodontic training where he obtained his Masters in Orthodontics in 1999. Since then he has remained on faculty in the Department of Orthodontics as an Affiliate Assistant Professor while maintaining a private practice in Tacoma, Washington. He has received the Charles L. Pincus Research Award for Clinical Research from the American Academy of Esthetic Dentistry and has contributed research and publications are primarily involved with aesthetic, interdisciplinary dentistry. He is a diplomate of the American Board of Orthodontists and a member of both the Angle Society and the American Academy of Esthetic Dentistry. He has written or co-written four book chapters as well as numerous scientific and review articles. Dr. Kokich Jr. has given over 200 lectures nationally and internationally on interdisciplinary dentistry and dental esthetics emphasizing comprehensive treatment planning and the importance of properly sequencing orthodontic, periodontal, and restorative treatment.

Hawaii, The Big Island

The Big Island is the largest most exciting of the Hawaiian Islands. Known as the “adventure island” the Big Island boasts some of Hawaii’s most varying landscapes and unique experiences. From vast valleys to white sand beaches and volcanic craters, the Big Island is home to an abundance of jaw dropping natural beauty. Visit Mauna Kea and star gaze, get up close to manta rays on a night dive, visit the farmers market or hike the Waipio Valley, swim with wild dolphins or snorkel in Kealakekua Bay. As one of the least developed of the inhabited Hawaiian islands, the Big Island is simply spectacular!
