SOFT TISSUE GRAFTING FOR THE GENERAL PRACTITIONER

Two day hands-on course with two live demo surgeries

DRS. TASSOS IRINAKIS & FARZAN GHANNAD

Soft tissue grafting is now a necessity in various stages of a dentist’s treatment plan.

Soft tissue enhancement prior to Orthodontic treatment or Prosthodontic rehabilitation offers a safer and more stable long term result. Bone grafting surgery sites are poorly planned without the existence of strong keratinized gingiva. The benefits of having resistant keratinized tissues around implants and implant supported crowns are well documented. Root coverage procedures allows you to offer your patients different options to address root sensitivity, aesthetic concerns, abfractions and abrasions.

This course introduces the participants to various aspects of soft tissue grafting and periodontal plastic surgery. Topics covered will include autogenous connective tissue grafts (CTGs), autogenous free gingival grafts (FFGs), utilizing allograft materials from the market, pedicle flaps, etc. An emphasis is placed on treatment planning and patient selection criteria through evidence based lectures and handouts. There will be two live demo surgeries by the Course Mentors on their patients along with the opportunity to practice various grafting techniques on animal mandibles.

EDUCATIONAL OBJECTIVES

1. Learn how to identify various types of recession and mucogingival deficiencies and the impact they have on your treatment plans
2. understand the methodology and rationale for using allograft materials vs. autogenous grafts
3. develop protocols for patient selection and when to refer
4. demonstrate the techniques and skills required for the surgical management of simple FGG and CTG cases
5. learn to maximize the outcome of your implant cases by incorporating soft tissue grafting in your treatment plans
6. learn to identify and manage the postoperative phase and complications

DR. TASSOS IRINAKIS, DDS, MSC, DIP.PERIO, FRCD(C)

received his Specialty diploma and Master's degree at The University of British Columbia. Dr. Irinakis is an Associate Clinical Professor at the Faculty of Dentistry at UBC. He served as the Director of the Graduate Periodontics & Implant Surgery program for nearly a decade. Dr. Irinakis is a reviewer for the Journal of Periodontology and Oral Surgery journals and serves as a member of the editorial advisory board for the Journal of Implant & Advanced Clinical Dentistry and the Journal of Clinical and Practical Implantology. He is a Fellow of the Royal College of Dentists of Canada and a member of numerous professional organizations. He has conducted clinical research on Implants & Sinus Bone Grafting and has authored several scientific articles on these topics. He lectures nationally and internationally with focus on Advanced Bone Grafting and Aesthetic Periodontal & Implant Dentistry. He holds private practices in Vancouver and Courtenay, BC.

FARZAN GHANNAD, DDS, MSC, DIP.PERIO, FRCD(C)

is a certified specialist in Periodontics and received his Specialty Diploma and Masters degree from the University of British Columbia (UBC). He completed his dental degree in Heidelberg, Germany and has conducted research and published in the field of Implant Dentistry. He is a Fellow of the Royal College of Dentists of Canada and member of numerous professional organizations. Dr. Ghannad is an Associate Clinical Professor at the Faculty of Dentistry at UBC and lectures nationally on all aspects of periodontal therapy, including soft tissue grafting, regeneration and implant dentistry. He practices in Vancouver, North Vancouver, BC as well as Saskatoon, SK.

If you are attending a Continuing Dental Education clinical/hands-on course at UBC, it is your responsibility to have a British Columbia medical licence. If you are licensed in any other province, please check with your provincial dental association regarding your liability insurance. It is also your responsibility to maintain adequate professional liability insurance. Liability insurance coverage is a member’s responsibility. The University of British Columbia cannot be held liable for any partial or total loss of earnings resulting from the enrolment in a course by a participant. The University of British Columbia does not determine the philosophy, procedure or product that the University of British Columbia fee is in full for attendance registration. The tuition fee is deductible for Canadian Income Tax purposes. See cancellation policy.

CANCELLATION POLICY

Limited enrolment courses require a minimum of 60 days notice for a full refund less $100 administration fee. Cancellations made between 60 and 30 days prior to the first day of the program will receive a 50% refund. Notification will be granted for cancellation made less than 30 days prior to the first day of the program. Continuing Dental Education at the University of British Columbia reserves the right to cancel courses or switch instructors if deemed necessary by low enrolment, instructor cancellation or other unforeseen issues. In case of course cancellation a full refund will be issued.

ADA CERP® Continuing Education Recognition Program

CDE at UBC is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying qualified providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at www.ada.org/cerp.
