THE BASIC RULES OF OCCLUSION
LECTURE, DEMONSTRATIONS AND CLINICAL PRACTICE
DR. MICHAEL J. RACICH

When you hear the word occlusion, what do you think about? Teeth coming together, TMD (temporomandibular disorders), a philosophy(s), or are you just plain confused? Unfortunately, many of our colleagues are unclear as to what occlusion means to them or more importantly, what it means for their patients. What might appear at first to be a complex topic, especially with the abundance of apparently conflicting theories and treatments, once simplified to the essential elements, is in reality, fairly straightforward. The essential elements I like to call ‘The Basic Rules of Occlusion’ and this program is dedicated to the outlining of these elements.

The Basic Rules of Occlusion outlines an evidenced-based practical approach to the understanding and implementation of occlusal therapy in everyday practice. Whether a dental generalist, dental specialist (prosthodontist, orthodontist, periodontist, endodontist, oral surgeon, orofacial pain practitioner), dentist, dental technician, dental hygienist or dental assistant The Basic Rules of Occlusion sooner or later will apply clinically as dental practitioners facilitate stomatognathic stability. An understanding of these Basic Rules will enhance all aspects of dental practitioner practice for the benefit of all the stakeholders, providing patients with an incredible service that is cost effective, efficacious, and exciting to do.

This course includes a morning lecture followed by an afternoon of demonstrations and practice.

EDUCATIONAL OBJECTIVES, LEARN ABOUT;

- Evidence-based not evidence-biased dentistry: what it is and is not
- Occlusion: when, what, how?
- Occlusion for everyday dentistry, major restorative dentistry, fixed and removable prosthodontics, for orthodontics, periodontics
- Occlusion and implant therapy
- Occlusion and TMD: is there a link?
- CR vs MIP: where, when, who’s?
- Vertical dimension assessment
- Occlusion and practical dental anatomy
- Occlusion and facially generated treatment planning
- Smile design and occlusal stabilization
- Envelope of function evaluation and maintenance
- Instrumentation: when, what, how?
- Orthotics: predictable usage
- Occlusal equilibration: protocols and end points
- Restorative and prosthodontic material selection

CLINICIAN

MICHAEL J. RACICH, DMD, a graduate from University of British Columbia, has a general dental practice emphasizing comprehensive restorative dentistry, prosthodontics and TMD/orofacial pain. Dr. Racich is a member of many professional organizations and has lectured nationally and internationally on subjects relating to patient comfort, function and appearance. He is a Fellow of the American College of Dentists as well as a Diplomate of the American Board of Orofacial Pain and the International Congress of Oral Implantologists. Dr. Racich has published in peer-reviewed scientific journals such as the Journal of Prosthetic Dentistry and the International Journal of Periodontics and Restorative Dentistry and has authored the books: The Basic Rules of Oral Rehabilitation (2010), The Basic Rules of Occlusion (2012), The Basic Rules of Facially Generated Treatment Planning (2013), and The Basic Rules of Being a Dental Patient (2016). Currently he mentors the didactic/clinical FOCUS Dental Education Continuum (study clubs, coaching, 2nd opinions only).

CANCELLATION POLICY

Limited Enrolment Courses require a minimum of 21 days notice for a full refund less $75 administration fee. Cancellations made between 21 and 14 days prior to the first day of the program will receive a 50% refund. No refund will be granted for cancellations made less 14 days prior to the first day of the program. Continuing Dental Education at The University of British Columbia reserves the right to cancel courses or switch instructors if deemed necessary by low enrolment, instructor cancellation or other unforeseen issues. In case of course cancellation a full refund will be issued. COVID-19: In the event that a course is cancelled by UBC CDE due to an order, notice and/or guidance from BC’s Provincial Health Officer, The University of British Columbia or any other governmental authority, tuition fees will be fully refunded.

ADA CERP

CDE at UBC is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

DISCLAIMER: Dental education institutions have an obligation to disseminate new knowledge related to dental practice. Some presentations may include controversial materials or commercial references. Sponsorship of a continuing education course by The University of British Columbia does not imply endorsement of a particular philosophy, procedure or product by The University of British Columbia. Fee in full must accompany registration. The tuition fee is deductible for Canadian Income Tax purposes. See cancellation policy.
