# Basic Suturing

Dr. Nicola De Angelis

LIMITED ENROLMENT

Although suturing is always the last step of a surgery, it is one of the most important steps that defines the success of the whole procedure. Regardless of the type of surgical procedure, the goals in caring for surgical wounds are to obtain complete closure while minimizing complications, such as infection or unsightly scarring. Every general dentist who is involved with minor oral surgery and implant surgery should have a complete understanding of the issues related to wound care or wound closure, including the challenges posed by incomplete closure or infected surgical sites. This suturing and surgical site management course is designed for general dentists who have minimal suturing skills or those who would like to upgrade their existing skills. In this course, clinicians will gain insight into the principles of healing and basic wound care. Basic excision techniques and suturing methods will be demonstrated and practiced.

### COURSE OBJECTIVES:

- Suturing techniques
- Suture aftercare
- Handling of instruments
- Gingival Incision guide and styles
- Needles and sutures
- Knot tying
- Scrubbing, gowning and gloving
- Cleaning a wound
- Local anaesthesia
- Patient management and consent
- Other methods of wound closure

### NICOLA DE ANGELIS, DDS, DMSC

Surgery, Implantology, Periodontics, Implant Prosthetics and Fixed Prosthesis

Dr. Nicola De Angelis, received his dental degree at Genoa University, where he currently serves as Assistant Professor and coordinator of clinical research projects. He completed the postdoctoral program with a master course in Periodontology at Siena University. He is an international member of the American Academy of Periodontology and a member of the Italian Society of Periodontology. He is also a lecturer at the Harvard School of Dental Medicine, the University of California at Los Angeles, the University of Pennsylvania, and the Mayo Clinic in Rochester, Minnesota.

Dr. De Angelis has published numerous articles on periodontology and implant surgery. He has numerous positions in Italy and he's currently a Contract Professor and Head of Scientific Research at the University of Genoa. Dr. De Angelis deals with research in the field of tissue regeneration and hold conferences both in Italy and abroad. He maintains a private practice in Acqui Terme, Italy.

### CANCELLATION POLICY:

Limited Enrolment Courses (lecture and workshop) require a minimum of 21 days notice for a full refund less \$100.00 administration fee. Cancellations made between 21 and 14 days prior to the first day of the program will receive a 50% refund. No refund will be granted for cancellations made less 14 days prior to the first day of the program. Continuing Dental Education at The University of British Columbia reserves the right to cancel courses or switch instructors if deemed necessary by low enrolment, instructor cancellation or other unforeseen issues. In case of course cancellation a full refund will be issued.

CDE at UBC is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to ADA CERP at [www.ada.org/cerp](http://www.ada.org/cerp).

**DISCLAIMER:** Dental education institutions have an obligation to disseminate new knowledge related to dental practice. Some presentations may include controversial materials or commercial references. Sponsorship of a continuing education course by The University of British Columbia does not imply endorsement of a particular philosophy, procedure or product by The University of British Columbia.
