

INFECTION PREVENTION & CONTROL: WHY SO PICKY? HERE'S WHY...

DR. LAMIA EL-ADWAR

Join us this fall for an Infection Control Update. This course is a review of the current infection prevention and control guidelines and recommendations for application in the dental setting. It is tailored for all dental healthcare personnel (dentists, hygienists, certified dental assistants and office staff). It is an opportunity to enhance your infection control knowledge and understanding, thus allowing you to reflect effectively on your own application and your commitment to patient safety.

THIS COURSE IS OPEN TO THE ENTIRE DENTAL TEAM, INCLUDING OFFICE STAFF

EDUCATIONAL OBJECTIVES

1. Identify the routes of transmission and pathogenesis of various microbial infections
2. Explain infection prevention and control measures that reduce the spread of pathogens to others
3. Describe mechanisms and methods for prevention and control of microbial diseases
4. Understand the expected application of CDSBC's infection prevention & control guidelines
5. Explain the elements needed to create an office-specific infection, prevention and control protocol
