Predictable restorative procedures demand continuous learning in the areas of adhesive material science and restorative technique. The numerous choices in adhesive materials has confused the clinician as to what is best indicated in a given situation. Clinical success demands an understanding of the uses and limitations of these different materials. This fast-paced webinar will include a comprehensive discussion of the ever-changing world of dentinal adhesives and light curing instruments.

**EDUCATIONAL OBJECTIVES**

- Understand the different adhesive systems and the indications/limitations

The Association of Continuing Dental Education (ACDE) brings together individuals who represent college-and university-based continuing dental education programs associated with accredited dental schools in Canada and the United States. The ACDE is here to serve you, the dental professional, in delivering high quality, evidence-based continuing dental education programs to meet your educational needs.

The University of British Columbia, Continuing Dental Education in conjunction with the ACDE, and along with 30 of its member schools, jointly presents the “ACDE Webinar Series”. This series features university-based key opinion leaders presenting on numerous topics on multiple dates and times. Presentations are available to meet every dental health care professional’s schedule and interests. Please visit dentistry.ubc.ca/cde for a list of ACDE webinar offerings.
