Oral rehabilitation of patients with hopeless dentition or edentulous state represents a therapeutic challenge for many clinicians. The All-on-X concept represents a graft-avoiding approach, where dental implants provide both support and retention for various prosthetic options to restore both esthetics and function. Careful attention to details is important to achieve predictable and long-term success of such cases. During this lecture, the speaker will highlight the absolute surgical and prosthetic variables to be considered for successful outcomes.

EDUCATIONAL OBJECTIVES
- Understand the diagnostic variables when treatment planning edentulous cases
- Be familiar with surgical and Prosthetic planning and execution in treating full arch cases
- How to safely implement immediate implantation and loading in different clinical situations

CLINICIAN
HUSSIEB BASMA, DDS, DESS, MS, received his Doctor of Dental Surgery from Damascus University in 2009. Dr. Basma completed a residency in Prosthodontics at Lebanon University and received a Certificate in Periodontology and Master of Science from the University of Alabama at Birmingham (UAB). Dr. Basma is a Diplomate in the American Board of Periodontology, lectures nationally and internationally about periodontology and dental implants and is a dental social media influencer. Dr. Basma is an Assistant Professor in the Department of Periodontology at UAB. His research and teaching efforts focus on bone augmentation, full-arch rehabilitation, multidisciplinary care, and integration of technology. Dr Basma is currently an active member of The American Academy of Periodontology, Academy of Osteointegration and The International Team for Implantology.

CANCELLATION POLICY
Cancellations received up to 72 hours prior to the course will receive a 50% refund. No refunds will be given for cancellations received within 72 hours of the course. Please note that Zoom will allow you to cancel out of a Zoom event at any time, however, all cancellations for this course must be made directly with UBC in accordance with this UBC CDE cancellation policy. Continuing Dental Education at The University of British Columbia reserves the right to cancel courses or switch instructors if deemed necessary by low enrolment, instructor cancellation or other unforeseen issues. In case of course cancellation by UBC CDE a full refund will be issued.
