An update on current issues focusing on biologic agents (monoclonal antibodies), pain management and antibiotic therapy.

**EDUCATIONAL OBJECTIVES**

- Assess modifications to dental treatment for patients taking biologic agents
- Select drugs for pain based on current scientific evidence
- Understand the indications for various antibiotics for the management of odontogenic infections and for antibiotic prophylaxis

**CLINICIAN**

ARTHUR H. JESKE, DMD, PHD, is the Associate Dean for Strategic Planning and Continuing Dental Education and a professor in the Department of General Practice and Dental Public Health at The University of Texas School of Dentistry at Houston. He earned his PhD in pharmacology and DMD from the Medical College of Georgia. He is a member of the American Dental Association (ADA), Texas Dental Association, and Greater Houston Dental Society and is a fellow of the International College of Dentistry and the American College of Dentistry. Dr. Jeske chaired the ADA's Council on Scientific Affairs in 2004 and has authored numerous articles on the use of drugs in dentistry. He is currently editor-in-chief of Mosby's Dental Drug Reference and an editor of Contemporary Dental Pharmacology.

**CANCELLATION POLICY**

Cancellations received up to 72 hours prior to the course will receive a 50% refund. No refunds will be given for cancellations received within 72 hours of the course. Please note that Zoom will allow you to cancel out of a Zoom event at any time, however, all cancellations for this course must be made directly with UBC in accordance with this UBC CDE cancellation policy. Continuing Dental Education at The University of British Columbia reserves the right to cancel courses or switch instructors if deemed necessary by low enrolment, instructor cancellation or other unforeseen issues. In case of course cancellation by UBC CDE a full refund will be issued.
