**Adventure & Learn**

**2023**

**THE UNIVERSITY OF BRITISH COLUMBIA**

**Faculty of Dentistry**

**Continuing Dental Education**

**MONDAY, JANUARY 30, 2023**

**8:00 AM - NOON**

## **Maintenance of Dental Implants and How to Avoid Long-term Complications**

*Dr. Hannu Larjava*

Dental implants are highly successful in most patients. However, there are many factors to consider when choosing this treatment plan for your patient. Some patients may present with risk factors for future implant complications or failure. Implant treatment should not end when implants have effectively osseointegrated and restored; instead they need life-long maintenance. Implants with peri-implantitis should be recognized early and treated without any delays. This lecture will present risk factors in implant dentistry, describe a maintenance program for dental implants and discuss the etiology and management of peri-implant mucositis and peri-implantitis.

### **LEARNING OBJECTIVES**

- Identify patients with risks for implant complications and failure
- Review the etiology and diagnostic criteria for peri-implant mucositis and peri-implantitis
- Learn how to implement implant maintenance program
- Discuss the treatment options for peri-implantitis

### **HANNU LARJAVA, DDS, PhD, Dip Perio**

Dr. Larjava is a Certified Specialist in Periodontics in BC and the Professor and Chair in the Division of Periodontics at the University of British Columbia. He has special interests in pathology of periodontal and peri-implant diseases and wound healing. He has published more than 190 publications and book chapters and given numerous CE lectures and courses nationally and internationally.

**TUESDAY, JANUARY 31, 2023**

**8:00 AM - NOON**

## **Blueprint for Anterior Esthetics with Natural Teeth and Implants**

*Dr. Hannu Larjava*

Gummy smile, uneven gingival margins, long teeth with exposed roots, presence of periodontal disease and ridge deficiency can cause stress and anxiety for our patients. A beautiful smile is linked to better self-confidence and happiness. This lecture covers the basic blueprints for anterior esthetics including diagnostic assessment, esthetic crown lengthening, bone augmentation, ideal implant placement and soft tissue grafting. Case studies with suboptimal results will also be presented for learning purposes.

### **LEARNING OBJECTIVES**

- Review the principles of anterior esthetics, assessment and treatment goals
- Discuss ideal implant placement at the anterior maxilla
- Discuss socket grafting and other bone augmentation techniques
- Learn the technique for esthetic crown lengthening
- Learn about different techniques for soft tissue grafting
- Learn from cases with suboptimal treatment outcomes

**THURSDAY, FEBRUARY 2, 2023**

**8:00 AM - NOON**

## **Variants of Normal Radiologic Anatomy that May Simulate Disease on Panoramic Images**

*Dr. Ernest Lam*

Recognizing the range of normal anatomical appearances on a well-made image is the most elementary step in image interpretation. At times, however, normal appearances can be altered as a result of patient anatomy, imaging system-related idiosyncrasies, or errors in image acquisition. This lecture will focus on a systematic approach to the investigation of panoramic images, and explore patient- and machine-related factors that may disrupt normal appearances.

### **LEARNING OBJECTIVES**

- Learn a systematic approach to panoramic image investigation
- Understand the range of appearances of normal anatomy on panoramic images
- Understand how patient- and panoramic system-related factors can alter the appearances of normal anatomy
- Identify key areas on the panoramic image where normal anatomy can be misdiagnosed as disease

### **ERNEST LAM, DMD, MSc, PhD, Dip ABOMR, FRCD(C)**

Professor Lam holds the Dr. Lloyd & Mrs. Kay Chapman Chair in Clinical Sciences and he is the Associate Dean, Graduate Education in the Faculty of Dentistry, University of Toronto. Dr. Lam is a Fellow of the Royal College of Dentists of Canada in Oral & Maxillofacial Radiology and a Diplomate of the American Board of Oral & Maxillofacial Radiology.

**FRIDAY, FEBRUARY 3, 2023**

**8:00 AM - NOON**

## **10 Radiologic Diagnoses Every Dentist Should Know**

*Dr. Ernest Lam*

When you discover something that looks unusual on a radiologic image, do you attempt to investigate the finding further yourself, or do you refer the patient to another practitioner for a diagnosis? And when you receive the diagnosis, do you know what to do next? In this session, we will discuss and explore the key radiologic features of 10 entities, some of which may be commonly seen, some of which may be variations of normal anatomy or hamartomas, and others of which may be "true lesions" that may require action and follow-up.

### **LEARNING OBJECTIVES**

- Develop a systematic strategy for investigating a radiologic finding
- Identify the key radiologic features of common anomalies or abnormalities, and understand these features in the context of the biologic process from which they have arisen
- Understand the necessity or urgency of a radiologic finding for action and follow-up.

# REGISTRATION INFORMATION

## COURSE TIMES: 16 HOURS OF INSTRUCTION

**MONDAY** 8 AM - NOON **Maintenance of Dental Implants and How to Avoid Long-term Complications**

**TUESDAY** 8 AM - NOON **Blueprint for Anterior Esthetics with Natural Teeth and Implants**

**WEDNESDAY** The Big Island, known as the “adventure island”, boasts some of Hawaii’s most varying landscapes and unique experiences. From vast valleys to white sand beaches and volcanic craters, it is home to an abundance of jaw dropping natural beauty. Visit Mauna Kea and star gaze, get up close to manta rays on a night dive, visit the farmers market or hike the Waipio Valley, swim with wild dolphins or snorkel in Kealakekua Bay. As one of the least developed of the inhabited Hawaiian islands, the Big Island is simply spectacular!

**THURSDAY** 8 AM - NOON **Variants of Normal Radiologic Anatomy that May Simulate Disease on Panoramic Images**

**FRIDAY** 8 AM - NOON **10 Radiologic Diagnoses Every Dentist Should Know**

Please join us on Monday evening for the Welcome Cocktail Reception, 5:30 pm – 7:00 pm.

## TUITION

Dentists \$1575

CDA/RDH/ Technicians/ Office Staff/ Auxiliary \$925

*Includes welcome reception, continental breakfasts, breaks, and course materials.*

## LOCATION & TRAVEL INFORMATION

### Fairmont Orchid Resort

Special hotel reservations at the Fairmont Orchid Resort have been arranged for course participants that are not available to the general public. Please call Jane Patrick at North South Travel to book. Jane can also arrange all of your travel requests, from rental cars and upgrading rooms to arranging flights. T: 604 717 1751 E: [jane@nstravel.bc.ca](mailto:jane@nstravel.bc.ca)

*Registrants must apprise themselves of and comply with all travel requirements mandated by the state of Hawaii*

## CANCELLATION POLICY

Full refunds less a \$100.00 service charge will be granted for cancellations made 60 days prior to the course. Cancellations made between 30 and 60 days prior to the first day of the program will receive a 50% refund. No refunds will be granted for cancellations made less than thirty days prior to the first day of the program. Continuing Dental Education at The University of British Columbia reserves the right to cancel courses if deemed necessary by low enrolment, instructor cancellation or other unforeseen issues. In case of course cancellation by UBC CDE, a full refund will be issued. If you cancel your registration for any reason including unforeseen circumstances relating to Covid-19 (i.e. illness, travel challenges, etc) please note that the cancellation policy will be strictly enforced.

## ADA CERP® | Continuing Education Recognition Program

CDE at UBC is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at [ADA.org/CERP](http://ADA.org/CERP).

**DISCLAIMER:** Dental education institutions have an obligation to disseminate new knowledge related to dental practice. Some presentations may include controversial materials or commercial references. Sponsorship of a continuing education course by The University of British Columbia does not imply endorsement of a particular philosophy, procedure or product by The University of British Columbia.
