

**THE WORN DENTITION: FINDING WAYS TO MEET & TREAT THE CHALLENGES...FROM PLANNING THROUGH EXECUTION**

DR. MARSHALL FAGIN

The challenges of the worn dentition leave many mystified with what treatment is possible and affordable. Learn insights to proper assessment and treatment options that can vary greatly and yet still fulfill patient objectives and save teeth.

EDUCATIONAL OBJECTIVES

- Learn how to assess and rebuild vertical dimension functionally and esthetically
- Understand the reason for wear/erosion and its impact on treatment planning
- Review treatment options that fit within financial comfort zone, integrating comprehensive exam findings of perio needs, TMJ issues, occlusal challenges, and habits contributing to wear/erosion
- Participate in case discussions on “what would you do” and how to plan and execute a restorative plan combining dentures, partials, crowns and major composite restorations
- Review detection of early wear how to protect and minimize further wear, as well as protection of patient’s investment in major restorative treatment
