Interactive CBCT lecture with a review of multiple cases to depict anatomy and pathological changes observed in Maxillary sinuses. Review of normal and variant anatomy with respect to dental implant treatment planning. Dr. Parashar will compare and contrast multiple CBCT scans of benign and malignant lesions of the maxillary sinuses.

EDUCATIONAL OBJECTIVES
• Describe the relevance of identification of maxillary sinus pathology
• Review of anatomy relevant to implant planning
• Description of variations of maxillary sinus anatomy
• Compare and contrast multiple CBCT scans of benign and malignant lesions of maxillary sinuses
