This course presents the indications and contraindications for removable partial dentures (RPD) and to review RPD design principles for different partially edentulous cases.

EDUCATIONAL OBJECTIVES

• Biomechanical consideration for RPD design
• Measures applied in RPD design to keep tissues and remaining teeth healthy
• Difference in designing RPDs for tooth supported vs tooth-tissue supported cases

SELMA SAADALDIN, BDS, MS, PHD, joined Schulich Dentistry at Western University as Assistant Professor in Prosthodontic Department in 2020. She pursued her BDS and Master’s degree in prosthodontics from Baghdad University and her PhD degree in dental biomaterials from Western University. Dr. Saadaldin worked as faculty at Ajman University of Science and Technology/UAE, Taibah University and Princess Nourah Bint Abdulrahman Universities in Saudi Arabia as well as Schulich Dentistry as Adjunct Clinical Professor.

REMOVABLE PARTIAL DENTURE DESIGN: PUTTING THE PIECES TOGETHER

The Association of Continuing Dental Education (ACDE) brings together individuals who represent college-and university-based continuing dental education programs associated with accredited dental schools in Canada and the United States. The ACDE is here to serve you, the dental professional, in delivering high quality, evidence-based continuing dental education programs to meet your educational needs.

The University of British Columbia, Continuing Dental Education in conjunction with the ACDE, and along with 30 of its member schools, jointly presents the “ACDE Webinar Series”. This series features university-based key opinion leaders presenting on numerous topics on multiple dates and times. Presentations are available to meet every dental health care professional’s schedule and interests.

Please visit dentistry.ubc.ca/cde for a list of ACDE webinar offerings.
