Dr. Azadani will present an overview of traumatic injuries to the teeth with a focus on the diagnosis and emergency management of traumatized teeth. Dr. Azadani will also share clinical case examples of dental injuries and the application of the International Association of Dental Traumatology guidelines to their emergency and long-term management.

EDUCATIONAL OBJECTIVES

• Describe the systematic method of oral examination in traumatic dental injuries
• Review the masticatory muscles
• Identify different types of traumatic injuries to the teeth
• Diagnostic tests for each condition and management
• Identify dental injuries that need emergency care
• Explain emergency management of dental fractures and periodontal injuries
• Educate the patient about the long term follow-up for traumatized teeth

EHSAN N. AZADANI, BDS, MS, PHD is an Assistant Professor in the Division of Pediatric Dentistry at Ohio State University and an attending at Nationwide Children’s Hospital Department of Dentistry, Columbus, OH. After his graduation from OSU, he joined the faculty at the OSU and NCH where teaches pediatric dental residents and dental students. He is a Diplomate of the American Board of Pediatric Dentistry. His research and teaching focus on traumatic dental injuries to the primary and young permanent dentition meetings.

EMERGENCY MANAGEMENT OF TRAUMATIC DENTAL INJURIES; WHAT ALL DENTISTS SHOULD KNOW

DR. EHSAN N. AZADANI
