This course will provide dental clinicians an overview of aligner therapy with specific focus on common problems that occur with aligner therapy including biomechanics, case selection and techniques to reduce common pitfalls.

**EDUCATIONAL OBJECTIVES**

- Understand proper case selection for aligner therapy
- Describe reliable movements that can be achieved with aligner therapy
- Understand common problems that occur with aligners and techniques to reduce them.

**CLINICIAN**

**CHRISTINE O’HEA, DMD, MDS** is an assistant professor in the Department of Orthodontics at Columbia University College of Dental Medicine. She earned her DMD at the University of Pennsylvania (1996) and her certificate in Orthodontics/Masters in Dental Science from the University of Connecticut (1999). Prior to joining Columbia in 2019, she was in private practice in New Jersey for 20 years. She has been treating patients with aligner therapy for over 20 years and is a Diplomate of the American Board of Orthodontics.

The Association of Continuing Dental Education (ACDE) brings together individuals who represent college-and university-based continuing dental education programs associated with accredited dental schools in Canada and the United States. The ACDE is here to serve you, the dental professional, in delivering high quality, evidence-based continuing dental education programs to meet your educational needs.

The University of British Columbia, Continuing Dental Education in conjunction with the ACDE, and along with 30 of its member schools, jointly presents the “ACDE Webinar Series”. This series features university-based key opinion leaders presenting on numerous topics on multiple dates and times. Presentations are available to meet every dental health care professional’s schedule and interests.

Please visit dentistry.ubc.ca/cde for a list of ACDE webinar offerings.
