

LIMITED ENROLMENT

BONE GRAFTING**RIDGE AUGMENTATION & SOCKET PRESERVATION WITH BONE GRAFTING
FOR FUTURE IMPLANT PLACEMENT**

Drs. Ali Sadeghi and Tasso Irinakis of the West Coast Institute

**INTERACTIVE VIDEO PRESENTATIONS OF SURGERIES AND HANDS ON SURGERIES IN SIMULATION
(ANIMAL MANDIBLES)**

This two day course is designed to teach dentists the procedure of lateral ridge augmentation via guided bone regeneration. Bone healing patterns, grafting materials & membranes, indications & management of complications, atraumatic extraction and socket preservation with bone grafting will be addressed in detail.

Treatment planning of participants' cases will be discussed if such cases are brought to the mentors by the dentists. Suturing techniques will also be demonstrated.

This course will be held at UBC. Participants will attend didactic lectures on Saturday. Sunday's session includes two interactive video presentations of surgeries by the course mentor(s) and hands-on surgery training, in simulation with animal mandible.

Participants will practice atraumatic extraction (with periostomes), socket preservation (with or without bone grafting), lateral ridge augmentation in single site cases with the use of bone substitutes and the appropriate suturing techniques.

This course is most beneficial for the beginner and intermediate implant dentist.

EDUCATIONAL OBJECTIVES

At the completion of this course, dentists will:

1. Understand the methodology and rationale for atraumatic extraction & socket preservation
2. Understand the methodology & rationale for single site lateral ridge augmentation and their limitations on this procedure
3. Develop diagnostic protocols to recognize uncomplicated from complicated cases and the different treatment planning strategy required
4. Manage postoperative phase and potential complications.

CLINICIANS

ALI SADEGHI DMD, MD, FRCD(C), is a board-certified Oral and Maxillofacial Surgeon. He obtained his Doctorate of Medicine degree from Mount Sinai School of Medicine in New York City as part of his 6-year oral and maxillofacial residency training in the same hospital. He is currently the Department Head of Dentistry and Oral & Maxillofacial Surgery at Lions Gate hospital in North Vancouver and Assistant Clinical Professor at UBC Dentistry. Dr. Sadeghi lectures nationally and internationally on all aspects of Implant Surgery and has private practices in Vancouver, North Vancouver and Port Coquitlam, BC.

TASSO IRINAKIS, DDS, MSC, DIP. PERIO, FRCD(C), is a board certified specialist in Periodontics and one of the current leaders in comprehensive implant patient care and implant education for dental professionals. He served as the Director of the Graduate Periodontics & Implant Surgery program at the University of British Columbia for nearly a decade. Dr. Irinakis is an Associate Clinical Professor in the faculty of dentistry and has published several articles on implants and bone grafting in peer reviewed journals. He has lectured nationally and internationally and holds private practice in Courtenay, Nanaimo and Vancouver, BC.

**CITAGENIX****CANCELLATION POLICY**

Limited Enrolment Courses require a minimum of 21 days notice for a full refund less \$100.00 administration fee. Cancellations made between 21 and 14 days prior to the first day of the program will receive a 50% refund. No refund will be granted for cancellations made less 14 days prior to the first day of the program. Continuing Dental Education at The University of British Columbia reserves the right to cancel courses or switch instructors if deemed necessary by low enrolment, instructor cancellation or other unforeseen issues. In case of course cancellation a full refund will be issued. COVID-19: In the event that a course is cancelled due to an order, an inability to have speakers travel to Canada at the time of the course, notice and/or guidance from BC's Provincial Officer, the University of British Columbia or any other governmental authority, tuition fees will be fully refunded.

CDE at UBC is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. CDE at UBC designates this activity for the above listed hours of instruction. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at ADA.org/CERP.

DISCLAIMER: Dental education institutions have an obligation to disseminate new knowledge related to dental practice. Some presentations may include controversial materials or commercial references. Sponsorship of a continuing education course by The University of British Columbia does not imply endorsement of a particular philosophy, procedure or product by The University of British Columbia.
