

# REGENERATIVE ENDODONTIC PROCEDURES

DR. MARIO ALOVISI

Regenerative Endodontic Procedures (REPs) are the most innovative evolving technologies in endodontics. They are widely discussed in literature, but which is the right clinical protocol? Is it difficult to realize? The webinar will be focused on the discussion of the most recent scientific findings from a clinical point of view. Moreover, the clinical procedures will be presented step by step throughout videos and clinical case reports. The main goal will be to show a simple, fast and reliable clinical protocol based on the modern literature and research.

## EDUCATIONAL OBJECTIVES

- To learn the clinical protocol for REPs
- To understand the biological background for regenerative endodontics
- To learn how to select the right clinical case for REPs
- To learn how to avoid procedural errors during the clinical protocol for REPs
- To understand the future developments in the field of regenerative endodontics
