

## ACDE LIVE WEBINAR SERIES

## A REVIEW OF MINIMALLY INVASIVE PROCEDURES IN MANAGING DENTAL CARIES IN CHILDREN

DR. KAVITA MATHU-MUJU

Interestingly, dentists who treat dental caries in children are increasingly understanding that cutting tooth structure with a handpiece is not always an imperative. Only 5% of all procedures performed on children are restorations requiring the use of a handpiece. This course will review several approaches to managing caries in children that do not require the use of a handpiece including: fluoride varnish, silver diamine fluoride, Hall crowns, resin infiltration, and fissure sealants. Additionally, challenges associated with case selection and treatment plan development will be discussed. Subsequent to completing the course, the participant should be equipped to manage caries in children in a manner that minimizes the removal of tooth structure by utilizing a dental handpiece.

## EDUCATIONAL OBJECTIVES

- Discuss the use of fluoride varnish in managing non-cavitated and cavitated lesions in children
- Recognize the appropriateness and technique of using silver diamine fluoride to stabilize carious lesions in pre-cooperative children
- Acknowledge the potential role of the Hall crown technique in managing caries in children
- Employ resin infiltration to treat incipient proximal lesions in both the primary and permanent dentition
- Distinguish between the use of sealants as a primary preventive agent versus as an early therapeutic agent in managing non-cavitated enamel lesions
- Discuss barriers to the implementation of biologically conservative techniques in managing early stage carious lesions.

## CLINICIAN

KAVITA MATHU-MUJU, DMD, MPH, CERTIFICATE IN PEDIATRIC DENTISTRY FRCD(C), graduated from the Faculty of Dentistry at the University of Manitoba in 1993. Following graduation, she practiced as a general dentist for the First Nations and Inuit Health Branch, Manitoba Region and travelled to Northern health centres and school-based dental clinics. Caring for children in remote communities was motivation to further her education in dentistry for children at the University of North Carolina, where she earned a Certificate in Pediatric Dentistry from the School of Dentistry and a Master's degree in Public Health from the School of Public Health in 2006. Dr. Mathu-Muju is a Diplomate of the American Board of Pediatric Dentistry and is a Fellow of the Royal College of Dentists of Canada. She is an active member of a number of professional organizations including the American Academy of Pediatric Dentistry, the Canadian Academy of

Pediatric Dentistry, and the International Association of Dental Research. Her publications appear in a variety of peer-reviewed journals. She also serves as a section editor and editorial board member for Pediatric Dentistry as well as a peer reviewer and editorial board member for the Journal of Dentistry for Children.

## CANCELLATION POLICY

Cancellations received up to 72 hours prior to the course will receive a 50% refund. No refunds will be given for cancellations received within 72 hours of the course. Please note that Zoom will allow you to cancel out of a Zoom event at any time, however, all cancellations for this course must be made directly with UBC in accordance with this UBC CDE cancellation policy. Continuing Dental Education at The University of British Columbia reserves the right to cancel courses or switch instructors if deemed necessary by low enrolment, instructor cancellation or other unforeseen issues. In case of course cancellation by UBC CDE a full refund will be issued.

Continuing Dental Education (CDE) at the University of British Columbia (UBC) is an ADA CERP Recognized Provider. ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of continuing dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry. CDE at UBC designates this activity for the above listed hours of instruction. Concerns or complaints about a CE provider may be directed to the provider or to the Commission for Continuing Education Provider Recognition at [CCEPR.ada.org](http://CCEPR.ada.org) This continuing education activity has been planned and implemented in accordance with the standards of the ADA Continuing Education Recognition Program (ADA CERP) through joint efforts between CDE at UBC and Association for Continuing Dental Education (ACDE).

DISCLAIMER: Dental education institutions have an obligation to disseminate new knowledge related to dental practice. Some presentations may include controversial materials or commercial references. Sponsorship of a continuing education course by The University of British Columbia does not imply endorsement of a particular philosophy, procedure or product by The University of British Columbia. Fee in full must accompany registration. The tuition fee is deductible for Canadian Income Tax purposes. See cancellation policy.

MONDAY

MAY 12, 2025

The Association of Continuing Dental Education (ACDE) brings together individuals who represent college- and university-based continuing dental education programs associated with accredited dental schools in Canada and the United States. The ACDE is here to serve you, the dental professional, in delivering high quality, evidence-based continuing dental education programs to meet your educational needs. The University of British Columbia, Continuing Dental Education in conjunction with the ACDE, and along with 30 of its member schools, jointly presents the "ACDE Webinar Series". This series features university-based key opinion leaders presenting on numerous topics on multiple dates and times. Presentations are available to meet every dental health care professional's schedule and interests. Please visit [dentistry.ubc.ca/cde](http://dentistry.ubc.ca/cde) for a list of ACDE webinar offerings.
